CTC & DATA ANALYTICS

CTC leverages data to transform the way companies work. The most common applications include:

- Predictive Support
- Customer Sentiment Analysis
- Behavioral Analytics
- Fraud Detection
- Customer Segmentation
- Business & Requirement Analysis
- Data Migration

CTC & DHIS2

CTC utilizes DHIS2 as a foundation for providing Data Management Services.

DHIS2 User Interface

DHIS2

The Open Source nature of DHIS2 allows for:

- Stability
- Low cost
- APIs to integrate with other applications
- Easy customization
